I believe that the proposed Microsoft settlement is one of the worst legal blunders in recent history. I don't believe it is necessary for me to describe all of the reasons why this is the case, our industry has done a much more eloquent job of that.

If this settlement is accepted, all I can say to the victims of the disastrous fate of the computer industry is, "You brought this on yourselves."

Though I am impacted daily by the problems of Microsoft's monopoly, (most are not even recognized by this suit) I am glad for every day that goes by that my company is too small to be noticed by Microsoft. The day that changes is the day I look for a new job in a new industry.
